Dear Ms. Goerd:

RE: **Stone Grip**

This is in reference to your letter of August 11, 2015 and to your emails of August 27, 2015 wherein you provided information on the subject product which you are seeking its acceptability to be used on floors to help prevent slips and falls in food processing establishments. This is also in response to the status request of September 11, 2015 of Mr. Greg Cohen of your company.

Based on the information submitted, we can advise that we see no reason to object to the use of the subject product as proposed above in food plants provided that:

- a) there is no contamination of food as a result of its use and storage; and
- b) It is only used on non food contact surfaces such as floors as stated on its label.

Concerning the label of the product, a food plant use statement such as "For food plants and other industrial use only" and a cautionary statement as in a) above should be added on the label of the product.

We trust that the foregoing will be of use to you.

Yours truly,

Amina Badar
