

BATHTUB COATING - TECHNICAL DATA SHEET

PRODUCT DESCRIPTION: FAST DRYING ANTISLIP COATING FOR FIBERGLASS AND ACRYLIC BATHTUBS/SHOWERS.

SURFACE PREPARATION:

- Sand lightly to promote adhesion (220 grit sandpaper recommended). Clean with Step 1 Degreaser (diluted to proper ratio) or wipe with a clean white cloth and acetone to remove all sanding dust. Allow to dry thoroughly.
- Make sure surface is clean and dry.
- Tape off areas that you do not want coated.

DIRECTIONS FOR USE:

IMPORTANT!
ALWAYS TEST PRODUCT ON
SURFACE PRIOR TO APPLICATION!

Mixing Instructions:

- Using a clean 8 oz plastic bottle, pour in 8 oz of liquid from gallon container.
- Use 6 grams (appx 1 tablespoon) of supplied additive into the bottle of liquid. Shake to mix thoroughly. Shake bottle occasionally during application.
- This mixture will treat 8-16 bathtubs, depending on amount applied to surface.

Application Instructions:

- Use proper ventilation during application process. Wearing gloves and eye protection is recommended.
- **Always test product on surface before treating entire area.**
- Shake bottle vigorously before application. Pour ½ oz to 1 oz of mixture onto surface of bathtub/shower.
- Using a good-quality white 3/8" nap roller, spread the mixture evenly over the surface area. Depending on size of job, length of roller should be 3" to 12." One or two coats is recommended.
- Let surface dry for 4-6 hours. The drying process can be accelerated by using Halogen lamps. Determine proper dry time during the testing process.
- Due to clarity of Clear Non-Skid Bathtub Coating, side lighting may provide a glare that will allow the application area to be more easily seen.

Clean Up: Discard roller(s) after application. Clean any spills with acetone.

Storage: Store in a cool dry area away from heat or flame. Protect from freezing.

WARNINGS:

Flammable. Keep away from heat, sparks and flames. Keep cap tightly closed when not in use. Harmful or fatal if swallowed. Avoid contact with skin and eyes. FIRST AID: For contact on skin or eyes, flush with plenty of water. Seek medical attention. Contains: Ester, Xylene and Toluene. Refer to SDS for additional warnings, first aid and product information. For more information, call 1-888-436-5404. **KEEP OUT OF REACH OF CHILDREN.**

*Some cleaners and bath products may affect coating.
Always test on bathtub first before full application.*
